EXPERIENCE

Web Developer — Nov. 2024 – Present
Randomize Tech — *Rajasthan, India (Hybrid)*
- Lead development of the official fest website, architecting an event management system that processed registrations for 5+ technical events with 1000+ participants
- Assisted in organizing technical events, ensuring smooth execution and high participant engagement

Freelancer - Owner — Feb 2023 – Present
LuvoWeb — *Remote*
- Delivered web solutions for 30+ clients, including venture-backed startups in crypto and e-commerce sectors
- Built and maintained responsive, high-performance applications using Next.js, React, and Node.js, improving client conversion rates by an average of 35%

Senior Frontend Developer — Aug. 2024 – Feb. 2025
IEEE CS — *Rajasthan, India (Hybrid)*
- Led development of innovative technical projects, contributed to coding tasks, and organized engaging workshops and events as part of the IEEE CS Tech team.
- Utilized Next.js, React, Express.js, TailwindCSS, Python and other technical skills

PROJECTS

UnchainedGPT - AI-Powered Chatbot | Next.js, MongoDB, TailwindCSS, Socket.IO — Dec 2024 – Jan 2025
- Developed a platform providing access to AI models like o3-mini, Claude 3.7, Midjourney and others.
- Built and scaled the platform to support 1,000+ active users and process over 20,000+ monthly AI interactions with efficient database management
- Implemented real-time communication using Socket.IO and Hono.js with average response time under 120ms

Personal Portfolio Website | Next.js, Figma, Tailwind CSS — May 2024
- Built SEO-optimized portfolio website using Next.js, attracting over 5,000 visitors monthly
- Included a blog section for writing about project breakdowns and personal insights.
- Designed visually appealing custom animations and interactive elements using React hooks and Framer Motion, increasing average session duration by 45%

Bantr - Chatting App | React, Node.js, Socket.IO, MongoDB, Tailwind CSS — Sep 2024 – Oct 2024
- Developed full-stack messaging platform with servers, channels, and direct messages, serving 100+ users
- Utilized WebSockets for seamless fast communication and MongoDB for data management.

LuvoWeb - Freelance Web Agency | React, Tailwind CSS, Figma, Vite — June 2024 – Aug 2024
- Built responsive and visually appealing website for my agency focused on performance and design.
- Created reusable component library with 30+ elements, reducing future development time by 40% for projects
